PMP, AWS SAP

Technical Program Manager - Architect

10481 Bridgegate Heights Loop, San Antonio, FL

GaryMMoreland@gmail.com | 571-247-2382

SUMMARY

Technical Program Manager with 15+ years of deep experience leading end to end solutions delivery with specializations in creating stories/epics from vague requirements and large-scale cloud modernization in highly regulated environments. Proven at owning complex, multi-team delivery across engineering, security (NIST), operations, and vendors while working with the business. Track record managing \$26M+ portfolios, driving predictable execution, and delivering legacy-to-cloud migrations that improve reliability, velocity, and cost efficiency.

CORE TPM SKILLS

- Program Ownership: Roadmaps, Milestones, Dependency & Risk Management
 - Cross-Functional Leadership: Engineering, Infrastructure, Security, DevOps, Vendors
 - Delivery: Agile at Scale, Release Management, CI/CD Enablement
 - Cloud Platforms: AWS GovCloud, EKS, Microservices, Hybrid Architectures
 - Financials: \$26M+ Budgets, Vendor Management, Cost Optimization
 - Metrics: OKRs, KPIs, Quality, Reliability, Velocity
-

EXPERIENCE

Internal Revenue Service (IRS) - IT Specialist / Technical Project Manager

Tampa, FL | 10/2012 – 09/2025

- Owned end-to-end delivery for multiple large-scale cloud solution programs (IRMOD, CVC), coordinating roadmaps, dependencies, and releases across **8+ engineering and platform teams**, achieving **95% on-time delivery** and **92% quality scores**.
 - Developed new Clean Vehicle Credit (CVC) system in **AWS GovCloud** using **microservices, DynamoDB, and DocumentDB**, delivering production release in **12 months** with a **3-week sprint cadence**.
 - Re-factored Information Returns system (IRMOD) to **AWS GovCloud platform** using **EKS, S3, DynamoDB, and DocumentDB**, delivering production release in **9 months** with a **2-week sprint cadence**.
 - Re-platformed a core enterprise filing system (MeF) from **mainframe to Linux/Solaris-based, cloud-ready architecture**, reducing operational risk and improving scalability, delivering **\$15M/year in sustained cost savings**.
- Led governance and execution for a **\$25M modernization portfolio**, aligning scope, vendors, and executive stakeholders to deliver across mission-critical platforms.
- Increased deployment velocity by 20% by leading DevOps and CI/CD modernization efforts, standardizing pipelines, testing strategy, and release cadence.

- Established KPI-driven execution models, executive reporting, and risk mitigation mechanisms to improve delivery predictability across concurrent programs (IRMOD, CVC).
- Coordinated architecture, security accreditation (NIST), infrastructure, and application teams to improve **resiliency, scalability, and operational readiness**.
- Standardized release management and automated testing frameworks, reducing defects and improving production stability.

Awards: Commissioner's Award (2021, 2015, 2014), Deputy Commissioner's Award (2019)

Booz Allen Hamilton - Associate, Technology Strategy & Modernization

McLean, VA | 10/2008 – 09/2012

- Oversaw **\$24M** in IT modernization and business services licensing programs for NIH/NHLBI, improving lifecycle management and service delivery.
 - Led cross-agency coordination to design and implement a **USCIS risk management framework** providing insight into the immigration system modernized solution, later adopted across DHS, generating **\$13M in cost savings**.
 - Advised FBI TEDAC leadership on information technology strategy supporting transition into a **\$28M facility**, aligning technical roadmaps with mission and security needs.
 - Maintained **94% KPI performance** across multiple concurrent programs for NIH/NHLBI through disciplined execution and vendor oversight.
-

QinetiQ - Technical Project & Product Manager

Reston, VA | 10/2005 – 08/2008

- Managed a **\$26M product portfolio** including GSA eLease, IRIS, and BPP platforms.
 - Led **36+ person cross-functional teams** across engineering, QA, database, and support.
 - Delivered .NET and JAVA enterprise solutions **on schedule and 12% under budget** through strong planning, dependency management, and risk control.
-

EDUCATION & CERTIFICATIONS

- **B.E., Electrical Engineering** - City College of New York
 - **Project Management Professional (PMP) certified**
 - **AWS Certified Solutions Architect Professional (AWS SAP)**
 - **Professional Certificate:** Building AI Products | CI/CD with Jenkins | IAC with Terraform
 - ITIL v3 | Six Sigma Black Belt (Trained)
 - NAC Level Security Clearance
-

TOOLS & TECHNOLOGIES

MS Project • Word • Excel • VS Code • Visual Studio

Waterfall, Agile • Jira, Confluence • AWS GovCloud, EKS, S3, DynamoDB, DocumentDB, Lambda • Infrastructure as Code (IAC) - Terraform, Continuous Integration/Continuous Delivery – Jenkins • GitHub • Git • Kubernetes, Docker • APIs, Event-Driven Architecture • Java, C#/C++, Python • SQL
